The Studio Gallery
Duncan McArthur Hall, B144
Faculty of Education,
Queen's University
511 Union Street West

Visiting hours are by appointment. Please contact educarts@queensu.ca to book a time. Instructors and classes welcome.

This installation brings together artistic expressions of research inspired by the work of the Social Studies and History Education in the Anthropocene Network (SSHEAN), led by Dr. Heather E. McGregor. The SSHEAN research group worked with artist-researcher-educator, Dr. Tiina Kukkonen, to envision how visual artworks and artmaking might contribute to climate change education research, pedagogy, and knowledge translation.

This exhibition is made possible through funding provided by the Faculty of Education (Office of the Dean - Research and Strategic Initiatives and the Community Initiatives Fund) and the Social Sciences and Humanities Research Council of Canada.
